

Accompany the Future

A Leading ICT Company in Vietnam

FPT Corporation was established on September 13, 1988 with IT and telecommunications as our core businesses. Today, FPT Corporation not only provides services to all of Vietnam (34 cities and provinces), but also has a global presence in 30 countries around the world. FPT Corporation strives to provide high quality and optimal solutions and technology services to its customers, while constantly pioneering and exploring the latest technologies in order to transform Vietnam into an IT powerhouse.

Organization

Aiming to Contribute to a Sustainable Society as a Japanese ICT Company

Since our establishment in 2005, we have provided value to Japanese customers through services and solutions that utilize advanced technologies, which act as a bridge between Vietnam and Japan. As a company that operates its business globally, we aim to contribute to the realization of a sustainable society by implementing work-style reform and transforming social structures through DX. We will continue to work with our consulting and system integration partners and solve problems faced by our customers by leveraging the abundance of hard-working, highly versatile human resources in Vietnam, a country that is experiencing remarkable growth.
